

WASHINGTON, District of Columbia – October 27, 2022

The [Low Carbon Patent Pledge](#) (LCPP) is pleased to announce that 563 pledged patents covering a range of sustainable and low-carbon energy technologies have been uploaded to the [WIPO Green database](#). LCPP technologies have been licensed for no-cost use by international technology firms including Hewlett-Packard Enterprise, Microsoft, Meta, JP Morgan Chase, Micro Focus, Majid al Futtaim, Ant Group, UPS, Alibaba, Viavi Solutions, Lenovo and Panasonic and cover technologies in areas as diverse as data center cooling, fuel cells, automated wind farms and home automation.

WIPO Green is an online platform for technology exchange that supports global efforts to address climate change by connecting providers and seekers of environmentally friendly technologies. Through its database, network and acceleration projects, it brings together key players to catalyze green technology innovation and diffusion.
